The State University at Lawrence is in a state of excitement over the call for the resignation of Miss KATE STEVENS, who has held the Professorship of Greek for the 'past seven years. She was graduated from that institution and afterwards spent some time in the Harvard Annex, following this training by a course of thorough study in Germany. Her fellow-professors and the students in the Greek department testify to her complete competency and petition for her retention, but the Regents of the University urge as objections "her sex and her religious convictions, or lack of religious convictions," or as Miss KATE puts it in plain English, "I am a woman and do not belong to the congregation of any church." Against this her competen y goes for nothing. As Mr. Sampson Brass remarks, "and this is a world which has its revolutions and various games of that sort."

The republicans have elected a State Senator in an Illinois district which is strongly democratic, and this fact insures the election of a Republican United States Serator to succeed LOGAN. It is not altogether certain that Logan will be allowed to succeed himself. There are one or two re publicans in the Illinois Legislature who have expressed a determination to not vote for the "Eagle" under any circumstances. But they lost their opportunity. your dealer before buying Mixed Paint. Is your paint a pure Linseed Oil Paint or does it contain Benzine? By simply opening a small can you can detect it by the smell. We do this when a bill of paint is wanted. Is it a pure White Lead and Zinc Paint?

Does it contain water? It is very important to be perfectly satisfied on these questions.
